

The diagram shows a large square with a smaller square inside it. The space between the two squares is filled with a light gray color. Dashed white lines represent the diecut paths, which follow the outer square's perimeter but are offset inward at each corner, creating a beveled effect. The text is centered within the inner square.

*PORTRAIT*

The diagram shows a large gray rectangle representing a landscape page. It is oriented vertically. A smaller gray rectangle is positioned inside it, offset from the top and right edges. Dashed white lines indicate the cut lines for the corners of the inner rectangle, showing how they are cut at a 45-degree angle. The text is centered within the inner rectangle.
